

# Physics 309

## Last Lecture - Summary

1) Next week is the last week of labs for Tuesday and Wednesday groups. The Monday group will finish on Thursday, November 20.

2) The last lab books are due a week after your last lab section.

Please bring them to my lab in AMPEL: Room 245, ph. 2-1998. If you need a copy to work on them for your formal report, Xerox it!

3) The formal Nature-style write up is due on Monday, December 8.

Send it by email ([damascelli@phas.ubc.ca](mailto:damascelli@phas.ubc.ca)); a pdf file is preferred.

4) Please come to discuss with me your outline any time (list of contents, message, and figures). It's not mandatory, but it might help.

5) Don't forget the rule: lab partners have to do it on different labs.

Any cheating will be punished with zero tolerance. Please visit this website to see the program I will be using to check for plagiarism:
