Finish time:

Clarity of the Slides Give a rating from 1-10 with 10 being extremely clear slides with just the right amount of information and a perfect balance of text and figures. Were the slides numbered? Which of the slides was the least clear and could be improved?

Content Give a number rating from 1-20 with 20 being a talk that is both interesting, and easily understood by most or all of the audience with no little specialized terminology. The scientific motivation, methods and results are all covered well and presented in an interesting way. Give an example of where it could be improved.

Oral communication: Give a number rating from 1-10 based on how well prepared they were, how well the speaker connected to the audience and how easy it was to understand the speaker. Comment on they might improve their delivery and communication.

Questions: Give a number rating from 1-10 on how well the speaker answered the questions taking into account the degree of difficulty. Had they done enough

background reading to answer reasonable questions? Comment on how they might answer one of the questions better.
